Product Description:

One of the best things about this Plastic Calf Hutch is that it is highly portable. You can easily move it from one location to another without any hassle. This is especially useful for farmers who need to relocate their calves frequently or those who want to move the hutch to a different spot for cleaning or maintenance.

Another important feature of this Plastic Calf Hutch is its UV resistance. The material used in its construction is specially treated to withstand the damaging effects of the sun's rays. This means that the hutch will not become brittle or crack easily, even after prolonged exposure to sunlight.

The Plastic Calf Hutch is also surprisingly lightweight, considering its robust construction. It weighs only 66kg, making it easy to move around even for a single person. This is a significant advantage for farmers who need to move their calves frequently or those who want to rearrange their farm layout without spending too much time and effort.

Cleaning the Plastic Calf Hutch is a breeze. The smooth surfaces of the plastic material make it easy to wipe down and sanitize. This is especially important for farmers who want to maintain a high level of hygiene in their facilities. The hutch can be easily disinfected with a mild detergent and water, making sure that your calves stay healthy and happy.

In summary, the Plastic Calf Hutch is a highly portable, UV-resistant, lightweight, and easy-to-clean product that is perfect for farmers who want to provide a safe and hygienic environment for their calves. Whether you're a seasoned farmer with years of experience or a newbie who's just starting out, this Plastic Calf Shelter is an essential investment that will pay off in many ways.

Features:

Product Name: Plastic Calf Hutch

Applications:

The Plastic Calf Shed is designed to provide a safe and secure environment for calves aged between 0-6 months. It is ideal for use in various scenarios such as farms, ranches, and other agricultural settings. The Calf Fence is easy to assemble and disassemble, making it convenient for farmers who need to move it from one location to another.

The Plastic Calf Coop is an excellent solution for farmers who want to provide a hygienic and clean environment for their calves. It is easy to clean and maintain, reducing the risk of infection and disease. The Calf Fence is also designed with ventilation in mind, ensuring that the calves have adequate airflow and fresh air to breathe.

The Chuangpu Plastic Calf Shed is a versatile product that can be used for various applications. It can be used as a temporary shelter for calves during the winter season or as a permanent structure for raising baby cows. The Plastic Calf Coop is also suitable for use in shows and exhibitions, where farmers can showcase their calves in a safe and comfortable environment.

Payment for the Plastic Calf Coop can be made through various payment methods such as T/T, Western Union, MoneyGram, and Paypal, making it convenient for customers to purchase. The Chuangpu HL-MP10E Plastic Calf Coop is a reliable and high-quality product that is made in China, ensuring that customers get the best value for their money.
